TEST COMMENTS: *Growing conditions were wet this year, with Ryan Skaug, our farmer cooperater, saying this was one of the wettest years they have ever seen. There was also hail at this location on August 28th. Crop damage was estimated to reduce yields by twenty percent. However, the soybeans in the plot appeared to bounce back nicely. Ryan's yield in the area surrounding our test was in the upper forties.*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
