Test Comments: *This plot was weed-free and standing well at harvest. We had good yields and data quality was strong with little variation across the entire field. The highlight of the growing season was receiving above average rainfall. Harvest has been slow in the area with weather that has featured rain, snow and cold temperatures.*

† See last page for abbreviation descriptions. Dark colored row identifies the check product found in early- and full-season tests. **Bold** yields are significantly above test average by LSD(0.10). **Italicized** brands exceed the grain moisture limit for this test. **ns** = column values not significantly different
