TEST COMMENTS: *Good weed control all year. Plants stood around 36 inches tall and had a uniform look across the whole plot at harvest. We no-till planted into oat stubble which helped make good harvest conditions. Consistent grain moisture except for one variety that didn't mature prior to harvest.*

† See last page for abbreviation descriptions. Results in **bold** are significantly above test average by LSD (0.10). **ns** = column values not significantly different.
